Stony Brook, NY

*Graduated, May 2024*

## SKILLS

- HTML -CSS -Javascript -Java -TypeScript -php -Python -Swift -React Native

-React -Angular -git -Express -AWS -GraphQL -SQL -NoSQL

-Vercel -Next.js -SEO -WebScraping -Jira -Node.js -Laravel -Figma -.Net

## EXPERIENCE

### Sports Stats (Web Application)

*Sole Developer*

*May 2024 - Present*

- A website that allows users to see detailed play by play and quarterly details on athletes
- Built on a React+Next and hosted on a Node backend
- Webscrapes and calls sports' APIs to get JSON data
- Hosted on Vercel
- Follow best SEO practices such as using h tags, meta tags, etc

### Designity

*Emerging Creative*

*July 2024 - Present*

- Used Figma to develop mobile and web applications
- Used Miro to storyboard and design the flow of applications (how pages connect to each other)
- Worked with clients to understand their needs and improved with feedback
- Used Jira for planning + developing the work flow of projects

### NBA SideKick (Mobile Application)

*Sole Developer*

*December 2023 - May 2024*

- An app that allows people to play a side competition while watching NBA games.
- Built off a React Native frontend and AWS Amplify Backend
- Authenticated users via AWS Cognito and stored data via DynamoDb (Queried via GraphQL)
- Web scrapes NBA.com for player statistics (JSON processing)
- Used Figma to engineer and build the look of the app.

### CVS Health

*Boston, MA*

*Digital Engineering Accelerator Intern*

*May 2023 - August 2023*

- Worked in a SCRUM based environment with my team to help develop changes on the main website.
- Learned the ins and outs of working in a large corporate setting.
- Worked with Angular and Typescript to debug and help support the main team.

### Building-U

*Toronto, CA*

*Junior Laravel Developer*

*December 2020 - March 2021*

- My role at Building-U was spent on a team developing a CRUD website via Laravel and React.
- We used MySQL as a database and collaborated on GitHub and Slack.
- We also had a new team of interns join us in which I helped to lead and integrate into our projects.
